Professional Summary

Web Developer (Django & React) with hands-on experience building real-time chat applications, scalable e-commerce platforms, and API-driven dashboards. Skilled in Django, REST APIs, WebSockets, React, Tailwind CSS, and modern UI development. Passionate about creating performant, user-centric web applications and eager to contribute to real-world products through a paid internship or junior developer role.

Experience

Frontend Developer Intern | Code Sentinel | Aug 2025 - Aug 2025 | Remote

- Designed and developed responsive landing pages, to-do apps, and portfolio websites using HTML5, CSS3,JavaScript and Tailwind CSS.
- Implemented dynamic UI features, interactive components, and modern layouts to enhance user experience.
- Collaborated on project planning and code reviews, ensuring clean, maintainable, and reusable code.

Frontend Developer Intern | Elevvo Pathways | Sep 2025- Sep 2025 | Remote

- Designed and developed tech landing pages, personal blogs, weather dashboards, and contact forms using HTML, CSS, JavaScript, and Tailwind CSS.
- Integrated APIs for dynamic content, including real-time weather dashboards.
- Implemented modern, responsive layouts and interactive UI components to enhance user experience.

Full Stack Developer Intern | Intern Intelligence | Sept 2025 - Oct 2025 | Remote

- Developed full-stack web applications, including a movie discovery platform and e-commerce sites, using Django, JavaScript, and Tailwind CSS.
- Integrated TMDB API and implemented backend modules for data management, authentication, and user-specific features.
- Designed and optimized responsive UI/UX flows to ensure seamless user experience across platforms.

Education

Bachelors of Science in Computer Science | Feb 2023- Jan 2027
Comsats University Islamabad, Sahiwal Campus
Current CGPA: 3.86 (6th Semester)

Skills

Programming Languages: Python, C++, JavaScript, Dart

Frontend : React, HTML, CSS, Tailwind CSS, Bootstrap, Bootstrap,

Backend & Database: Django, REST API Integration, WebSockets, Django Channels, SQLite, Django ORM, Firebase, Django Rest Framework

Development Tools & IDEs: VS Code, Git, GitHub, Debugging & Error Handling PyCharm, Android Studio, Jupyter Notebook, Netlify, Vercel

Projects

Talkify – Real-Time Chat App

- Developed a full-stack real-time chat application with Django, WebSockets, Tailwind CSS, and JavaScript.
- Implemented one-to-one & group messaging, message editing/deletion, reactions, starred messages, and unread message tracking.
- Built user authentication, profile management, and group admin features with responsive, dark/light theme UI.

Urban Aura – E-Commerce Website

- Developed a scalable e-commerce platform with Django backend and Tailwind CSS for responsive, modern UI.
- Implemented product listing, categories, shopping cart, and checkout workflow for seamless user experience.
- Built user authentication, order management, and modular project structure using Python, HTML, JavaScript, and SQLite.

MovieHub – Django Movie Discovery Platform

- Developed a Django-based movie discovery platform integrating TMDB API for dynamic movie data and posters.
- Implemented movie search, detailed movie views, user authentication, and responsive UI for desktop and mobile.
- Tech Stack: Django, Python, Tailwind CSS, JavaScript, SQLite, TMDB API.

Weather Dashboard – Real-Time Weather App

- Developed a dynamic web app to fetch and display real-time weather and 5-day forecasts using OpenWeatherMap API.
- Implemented city search, geolocation, and responsive UI for seamless user experience across devices.
- Tech Stack: JavaScript, HTML, CSS, Tailwind CSS, OpenWeatherMap API.

Certificates

- Pakistan Freelancers Association (PAFLA) Membership Certificate - PAFLA
- Google Soft Skills Training Program Certificate - PAFLA
- Problem Solving (Basic) Certificate - HackerRank
- React (Basic) - HackerRank
